The style declarations which apply to the text below are:

```
P {font-size: 12pt;}
.one {vertical-align: sub;}
.two {vertical-align: super;}
.three {vertical-align: top; font-size: 12pt;}
.four {vertical-align: text-top; font-size: 12pt;}
.five {vertical-align: middle; font-size: 12pt;}
.six {vertical-align: bottom; font-size: 12pt;}
.seven {vertical-align: text-bottom; font-size: 12pt;}
.eight {vertical-align: baseline; font-size: 12pt;}
.nine {vertical-align: 50%; font-size: 12px; line-height: 16px;}
P.example {font-size: 14pt;}
BIG {font-size: 16pt;}
SMALL {font-size: 12pt;}
.ttopalign {vertical-align: text-top;}
.topalign {vertical-align: top;}
.midalign {vertical-align: middle;}
```

Image not readable or empty
[Image]blank.gif The first four words in this sentence should be subscript-aligned. The font size of the superscripted text should not be different from that of the parent element.

Image not readable or empty
[Image]blank.gif The first four words in this sentence should be superscript-aligned. The font size of the subscripted text should not be different from that of the parent element.

Image not readable or empty
[Image]blank.gif The first four words in this sentence should be top-aligned, which will align their tops with the top of the tallest element in the line (probably the orange rectangle).

Image not readable or empty
[Image]blank.gif The first four words in this sentence should be text-top-aligned, which should align their tops with the top of the tallest text in the line.

Image not readable or empty
[Image]blank.gif The image at the beginning of this sentence should be middle-aligned, which should align its middle with the point defined as the text baseline plus half the x-height.

Image not readable or empty
[Image]blank.gif The first four words in this sentence should be 12pt in size and bottom-aligned, which should align their bottom with the bottom of the lowest element in the line.

Image not readable or empty
[Image]blank.gif The first eight words ("eight" has a descender) in this sentence should be 12pt in size and text-bottom-aligned, which should align their bottom with the bottom of the lowest text (including descenders) in the line.

[Image] Image not readable or empty images/vblank.gif The first four words in this sentence should be 12pt in size and baseline-aligned, which should align their baseline with the baseline of the rest of the text in the line.

[Image] The first four words Image not readable or empty images/vblank.gif in this sentence should have a font-size of 12px and a line-height of 16px; they are also 50%-aligned, which should raise them 8px relative to the natural baseline.

In the following paragraph, all images should be aligned with the top of the 14-point text, which is identical to the first section of text, whereas any size text should be aligned with the text baseline (which is the default value).

This paragraph Image not readable or empty images/vblank.gif [Image] contains many images [Image] Image not readable or empty images/vblank.gif of varying heights [Image] Image not readable or empty and widths [Image] Image not readable or empty images/vblank.gif all of which [Image] Image not readable or empty images/vblank.gif should be aligned [Image] Image not readable or empty images/vblank.gif with the top of [Image] Image not readable or empty images/vblank.gif [Image] a 14-point text element [Image] Image not readable or empty images/vblank.gif regardless of the line in which the images appear.
